

Be proactive — take charge of your health!

Reid Hospital Laboratory offers four packages to make it affordable and convenient to take charge of your health and wellness. Discuss these packages with your primary care physician to determine which will benefit you the most. To schedule your Lab-Well appointment, call Reid Central Scheduling: **(765) 983-3358** and let them know which package you choose.*

Lab-Well Package 1 — \$59 Save over \$100

- **Lipid Panel (cholesterol testing)**

A lipid profile measures fats in your blood. High cholesterol is a major risk factor for coronary artery disease and stroke.

- **Glucose (blood sugar)**

Glucose is a measure of sugar in your blood.

Lab-Well Package 2 — \$89 Save over \$200

- **Lipid Panel**

- **Complete Blood Count**

A broad screening to check for anemia, infection and many other diseases.

- **Comprehensive Metabolic Panel (glucose)**

A broad screening to evaluate organ function and check for conditions such as diabetes, liver disease and kidney disease.

Lab-Well Package 3 — \$119 Save over \$300

- **Lipid Panel**

- **Complete Blood Count**

- **Comprehensive Metabolic Panel (glucose)**

- **Thyroid Stimulating Hormone (TSH)**

Screens for abnormal TSH levels, which may signal thyroid problems. The thyroid is responsible for stimulating metabolism.

Lab-Well Package 4 — \$149 Save over \$400

- **Lipid Panel**

- **Complete Blood Count**

- **Comprehensive Metabolic Panel (glucose)**

- **Thyroid Stimulating Hormone (TSH)**

- **Hgb A1c**

Averages blood sugar levels over the past three months. It can be used to monitor diabetes control or as a wellness indicator for pre-diabetes.

*Only one non-employment physical examination and related tests per calendar year may be used as Wellness screening. Pre-payment is required. Unable to accept walk-ins for these tests.
