

Joint Processing is a service for those clients who have a health plan and a flex plan administered by Allegiance Benefit Plan Management, Inc. When elect Joint Processing, you receive flex reimbursement automatically. You do not have to send the EOB you receive from the health plan to Allegiance Benefit Plan Management, Inc. with a claim form in order to claim your flex reimbursement.

However, Joint Processing is not for everyone! If you have secondary insurance for anyone in your family who is also covered on your employer's health plan, you should not elect Joint Processing.
