DAVIS VISION'S CONTACT LENS BENEFIT FAQ FOR THE CITY OF MCKINNEY

How your contact lens benefit works when you visit a Davis Vision network provider.

As a Davis Vision member, you are entitled to receive contact lenses in lieu of eyeglasses during your benefit period. When you visit a Davis Vision network provider, you will first receive a comprehensive eye exam to determine the health of your eyes and the vision correction needed. If you choose to use your eyewear benefit for contacts, your eye care provider or their staff will need to further evaluate your vision care needs to prescribe the best lens options. Below is a summary of how your contact lens benefit works in the Davis Vision plan.

WHAT IS THE DAVIS VISION CONTACT LENS COLLECTION?

As with eyeglass frames, Davis Vision offers a special Collection of contact lenses to members, which greatly minimizes out-of-pocket costs. The Collection is available only at independent network providers that also carry the Davis Vision Collection frames. You can confirm which providers carry Davis Vision's Collection by logging into the Member website at www.davisvision.com.

Look for this icon  in the provider listing to verify that they carry the Davis Vision Collection. You can also show your provider this list of contacts to make sure they prescribe you contacts from the Collection.

If your provider prescribes contact lenses that are included in Davis Vision's Collection (featuring many of the top brands on the market today), your contact lens evaluation, fitting and follow-up care will be covered in full. At no additional cost, you will also be provided with an initial supply of Collection contact lenses, in one of the following prescribed categories:

Planned Replacement: Two boxes/multi-packs

Disposable: Four boxes/multi-packs

WHAT IF MY PROVIDER PRESCRIBES CONTACT LENSES THAT ARE NOT A PART OF THE DAVIS VISION COLLECTION?

If the prescribed contact lenses are not included in Davis Vision's Collection, or if you visit a provider who does not carry the Davis Vision Collection (such

as Vistar or a retailer like Visionworks®, etc.), you will receive a \$125 allowance that is applicable toward the cost of contact lenses and in addition, you will receive a 15% discount¹ off any balance after the \$125 retail allowance has been applied. The evaluation, fitting and follow-up services for your contact lenses will depend on the type of contact lenses prescribed and the following coverage will apply:

Standard/Soft Contacts: 15% Discount

Specialty Contacts:² 15% Discount

CAN I USE MY DAVIS VISION PLAN AT WALMART, SAM'S CLUB OR COSTCO?

Yes, you may check for your provider on our member website at www.davisvision.com to confirm. The Davis Vision provider network includes many regional and national retail locations, including Walmart and Sam's Club.

Please note: Walmart and Sam's Club locations do not carry the Davis Vision Collection, but these national retailers include significant discounts in their everyday pricing. Therefore, additional discounts - such as the 15% discount towards any balance over the \$125 allowance do not apply at these locations.

HOW ARE MEDICALLY NECESSARY CONTACT LENSES COVERED?

In some cases, medically necessary contact lenses will be prescribed in lieu of eyeglasses, when it will result in significantly better visual acuity and/or improved binocular function, including the avoidance of diplopia or suppression. After review and upon approval, Davis Vision will cover the cost of medically necessary contacts in full.

Please contact Davis Vision member services at 1-800-999-5431 if you or your Davis Vision provider has any additional questions.

1/Additional discounts not applicable at Walmart or Sam's Club locations.
2/Specialty contact lenses are, but not limited to, toric and multifocal lenses
